Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This action is responsive to communication: response filed on 06/07/04.

This action is made final.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-26 are rejected under 35 U.S.C. 102(e) as being anticipated by Dodds et al., US 2002/0116371 A1.

As per claim 1, Dodds et al. teaches "receiving a request for information in a database, the request associated with a table in the database . . . portion of the information in the table" (see page 1, paragraph [0009] and page 2, paragraph [0010]) "executing a logical structure associated with the table to produce a logical view of the table, the logical view containing at least a portion of the information from the table without identifiers" (see page 1, paragraph [0006] and page 2, paragraph [0021]) "identifying the requested information in the logical view: and communicating the identified requested information in the logical view" (see pages 2-3, paragraph [0024]-[0025]).

As per claim 2, Dodd et al. teaches "row identifiers that identify each row in the table" (see page 6, paragraph [0068]).

As per claim 3, Dodd et al. teaches “all columns from the table except a column containing the row identifiers” (see page 6, paragraph [0068]).

As per claim 4, Dodd et al. teaches “each row identifier uniquely identifies a row in the database” (see page 1, paragraphs [0006]-[0007] and page 6, paragraph [0068]).

As per claim 5, Dodd et al. teaches “renaming the table from an original name; and wherein the logical structure names the logical view after the original name of the table” (see page 4, paragraphs [0037]-[0040]).

As per claims 6-7, Dodd et al. teaches “a query to the database” (see pages 2-3, paragraphs [0024]).

As per claim 8, Dodd et al. teaches “query using the logical view” (see pages 2-3, paragraphs [0021]-[0024]).

As per claim 9, Dodd et al. teaches “receiving the request from the web server . . . request information to the web service” (see page 2, paragraph [0020]).

As per claims 10-16, these claims are rejected on grounds corresponding to the arguments given above for rejected claims 1-9 and are similarly rejected.

As per claims 17-23, these claims are rejected on grounds corresponding to the arguments given above for rejected claims 1-9 and are similarly rejected.

As per claims 24-26, these claims are rejected on grounds corresponding to the arguments given above for rejected claim 1 and is similarly rejected including the following:

Dodd et al. teaches “a plurality of row identifiers that uniquely identify each row in the table . . .” (see page 6, paragraph [0068]).

Response to Arguments

4. Applicant's arguments filed 6/07/04 have been fully considered but they are not persuasive.

--As per applicant's arguments regarding "nothing in this paragraph even remotely relates to executing a logical structure associated with a database table to produce a logical view of the table . . .", examiner maintains that Dodds' teachings of XML documents in regards to generating a relational database table, clearly illustrates the execution of a logical structure (XML and searcher) associated with a database table to produce a logical view. Examiner considers Applicant's use of the phrases "logical structure" and "logical view" as being equivalent to the view of a XML document and therefore the teachings of Dobbs and Applicant's teaching are equivalent.

--As per applicant's arguments regarding "Dobbs . . . still does not teach the plurality of identifiers identifying a portion of the information table . . .", examiner maintains that Dobbs' teachings of a XML document that includes the identifiers, tags, etc. in the manner similar to applicant's claim language and thus the teachings of Dobbs and applicant's claim language are equivalent.

Conclusion

5. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
